

Safety, Childproofing, and Basic First Aid

Do you have or care for an older baby or child, or are you expecting a new baby? Is your child getting more active, curious, and into everything?

This class is for expectant parents and parents/caregivers of children 0-3 years old who are looking for important information about preventing injuries in the first 3 years of life.

In partnership with Safe Kids Maine you will learn what injuries infants and toddlers are most at risk for, ways to prevent these injuries from happening, and how to handle them if they do.

Babies in arms are welcome!

Saturday, June 22nd 9:00-11:00am

\$25 per person

MMC East Tower
